

SoapySDR._object

```
classDiagram
    class SoapySDR__object {
    }
    class SoapySDR_ModuleVersion {
        +this
        -__swig_setmethods__
        -__setattr__
        -__swig_getmethods__
        -__getattr__
        -__repr__
        -__swig_destroy__
        +__init__()
    }
    SoapySDR_ModuleVersion --|> SoapySDR__object
```

The diagram illustrates a class hierarchy. At the top is the 'SoapySDR._object' class, represented by a rectangle divided into three horizontal sections. The top section contains the class name, while the two bottom sections are empty. Below it is the 'SoapySDR.ModuleVersion' class, represented by a rectangle divided into three horizontal sections. The top section contains the class name. The middle section, which has a light gray background, lists several attributes: '+ this', '- __swig_setmethods__', '- __setattr__', '- __swig_getmethods__', '- __getattr__', '- __repr__', and '- __swig_destroy__'. The bottom section, also with a light gray background, lists the method '+ __init__()'.

SoapySDR.ModuleVersion

+ this

- __swig_setmethods__

- __setattr__

- __swig_getmethods__

- __getattr__

- __repr__

- __swig_destroy__

+ __init__()
