

lime::IConnection::
GPIOWrite

```
graph LR; A["lime::IConnection::GPIOWrite"] --> B["lime::ReportError"]; B --> C["errToStr"]
```

The diagram illustrates a three-step process flow. It begins with a grey rectangular box containing the text 'lime::IConnection::GPIOWrite'. A dark blue arrow points from this box to a white rectangular box containing 'lime::ReportError'. A second dark blue arrow points from the 'lime::ReportError' box to a final white rectangular box containing 'errToStr'. All boxes have a black border, and the flow is horizontal from left to right.

lime::ReportError
