

supermod::docParaType

```
classDiagram
    class supermod_docParaType["supermod::docParaType"]
    class doxygen_generated_compound_docParaTypeSub["doxygen.generated.compound.docParaTypeSub"]
    doxygen_generated_compound_docParaTypeSub --|> supermod_docParaType
```

The diagram illustrates a class hierarchy. At the top is the base class 'supermod::docParaType', represented by a rectangle with three horizontal compartments. The top compartment contains the class name, while the others are empty. Below it is the derived class 'doxygen.generated.compound.docParaTypeSub', represented by a rectangle with three horizontal compartments. The top compartment contains the class name, the middle one lists attributes, and the bottom one lists methods. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.
