

`_wrap_estimator_rcs`
`_sptr_processor_affinity`

```
graph LR; A["_wrap_estimator_rcs<br/>_sptr_processor_affinity"] --> B["swig::from"]
```

A diagram illustrating a mapping or transformation. On the left, a gray rectangular box contains two lines of C++ code: `_wrap_estimator_rcs` and `_sptr_processor_affinity`. A blue arrow points from this box to a white rectangular box on the right, which contains the text `swig::from`. This likely represents a SWIG wrapper function or a module-level transformation.

`swig::from`
