

`_wrap_estimator_fmchw`
`_sptr_pc_noutput_items_avg`

```
graph LR; A["_wrap_estimator_fmchw  
_sptr_pc_noutput_items_avg"] --> B["SWIG_From_float"]
```

A diagram showing a mapping from a C++ code block to a SWIG function. The left box contains the C++ code `_wrap_estimator_fmchw` and `_sptr_pc_noutput_items_avg`. A blue arrow points from this box to a right box containing the SWIG function `SWIG_From_float`.

`SWIG_From_float`
