

_wrap_SoapySDRUnsignedList_back

```
graph LR; A["_wrap_SoapySDRUnsignedList_back"] --> B["SWIG_From_unsigned<br/>_SS_int"]
```

A diagram illustrating a mapping between a C++ wrapper function and a SWIG interface function. On the left, a gray rectangular box contains the text `_wrap_SoapySDRUnsignedList_back`. A dark blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text `SWIG_From_unsigned` on the top line and `_SS_int` on the bottom line.

SWIG_From_unsigned
