

supermod::docSect2Type

```
classDiagram
    class supermod_docSect2Type["supermod::docSect2Type"]
    class doxyxml_generated_compound_docSect2TypeSub["doxyxml.generated.compound.docSect2TypeSub"]
    doxyxml_generated_compound_docSect2TypeSub --|> supermod_docSect2Type
```

The diagram illustrates a class hierarchy. The base class, 'supermod::docSect2Type', is shown in a white box with a thin black border. It has two empty rectangular compartments below its name. The derived class, 'doxyxml.generated.compound.docSect2TypeSub', is shown in a grey box with a thick black border. It contains the text '+ \_\_init\_\_()' in its bottom compartment. A blue arrow with a hollow triangular head points from the derived class to the base class, indicating inheritance.
