

`_wrap_signal_generator`
`_fmcw_c_sptr_pc_noutput`
`_items_var`

```
graph LR; A["_wrap_signal_generator  
_fmcw_c_sptr_pc_noutput  
_items_var"] --> B["SWIG_From_float"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is light gray with a black border and contains three lines of C++-style identifiers: `_wrap_signal_generator`, `_fmcw_c_sptr_pc_noutput`, and `_items_var`. The right box is white with a black border and contains the text `SWIG_From_float`. A solid blue arrow points from the right side of the gray box to the left side of the white box.

`SWIG_From_float`
