

`_wrap_estimator_fmchw`
`_sptr_processor_affinity`

```
graph LR; A["_wrap_estimator_fmchw  
_sptr_processor_affinity"] --> B["swig::from"]
```

A diagram illustrating a mapping or transformation. On the left, a gray rectangular box contains two lines of C++ code: `_wrap_estimator_fmchw` and `_sptr_processor_affinity`. A blue arrow points from this box to a white rectangular box on the right. The white box contains the text `swig::from`, indicating that the code in the gray box is being mapped to or wrapped by the `swig::from` module.

`swig::from`
