

supermod::docAnchorType

```
classDiagram
    class supermod_docAnchorType["supermod::docAnchorType"]
    class doxyxml_generated_compound_docAnchorTypeSub["doxyxml.generated.compound.docAnchorTypeSub"]
    doxyxml_generated_compound_docAnchorTypeSub --|> supermod_docAnchorType
```

The diagram illustrates a class hierarchy. At the top is the base class 'supermod::docAnchorType', represented by a rectangle with three horizontal compartments. The top compartment contains the class name, while the others are empty. Below it is the derived class 'doxyxml.generated.compound.docAnchorTypeSub', represented by a shaded rectangle with three horizontal compartments. The top compartment contains the class name, the middle one is empty, and the bottom one contains the method '+ __init__()'. A blue arrow with an open triangle head points from the derived class to the base class, indicating inheritance.

doxyxml.generated.compound.doc
