

sync_block

```
classDiagram
    class sync_block
    class gr_rad_radar_signal_generator_sync_pulse_c["gr::radar::signal_generator_sync_pulse_c"] {
        + make()
    }
    gr_rad_radar_signal_generator_sync_pulse_c --|> sync_block
```

The diagram illustrates a class hierarchy. At the top is a class box for 'sync_block', which is divided into three horizontal sections: the top section contains the class name, and the two bottom sections are empty. Below it is a class box for 'gr::radar::signal_generator_sync_pulse_c', which is divided into three horizontal sections: the top section contains the class name, the middle section is empty, and the bottom section contains the text '+ make()'. A blue line with an open triangle arrowhead points from the top of the 'gr::radar::signal_generator_sync_pulse_c' box to the bottom of the 'sync_block' box, indicating that 'gr::radar::signal_generator_sync_pulse_c' inherits from 'sync_block'.

gr::radar::signal_generator
_sync_pulse_c

+ make()
