

supermod::docListType

```
classDiagram
    class supermod_docListType["supermod::docListType"]
    class doxyxml_generated_compound_docListTypeSub["doxyxml.generated.compound.docListTypeSub"]
    doxyxml_generated_compound_docListTypeSub --|> supermod_docListType
```

The diagram illustrates a class hierarchy. At the top is the base class 'supermod::docListType', represented by a rectangle with three horizontal sections. The top section contains the class name, while the two lower sections are empty. Below this is the derived class 'doxyxml.generated.compound.docListTypeSub', represented by a shaded rectangle with three horizontal sections. The top section contains the class name, the middle section is empty, and the bottom section contains the method '+ \_\_init\_\_()'. A blue arrow with an open triangular head points from the top of the derived class box to the bottom of the base class box, indicating inheritance.
