

supermod::docImageType

```
classDiagram
    class supermod_docImageType["supermod::docImageType"]
    class doxyxml_generated_compound_docImageTypeSub["doxyxml.generated.compound.docImageTypeSub"]
    doxyxml_generated_compound_docImageTypeSub --|> supermod_docImageType
```

The diagram illustrates a class hierarchy. At the top is the base class 'supermod::docImageType', represented by a white box with a black border. Below it is the derived class 'doxyxml.generated.compound.docImageTypeSub', represented by a gray box with a black border. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance. The derived class box is divided into three horizontal sections: the top section contains the class name, the middle section is empty, and the bottom section contains the method '+ \_\_init\_\_()'.
