_remover_cvc_sptr_pc_noutput  
_items_var"] --> B["SWIG_From_float"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is light gray with a black border and contains three lines of C++-style identifiers: `_wrap_ofdm_cyclic_prefix`, `_remover_cvc_sptr_pc_noutput`, and `_items_var`. The right box is white with a black border and contains the text `SWIG_From_float`. A solid blue arrow points from the right side of the gray box to the left side of the white box.
