

tagged\_stream\_block

```
classDiagram
    class tagged_stream_block {
    }
    class gr_radar_split_cc["gr::radar::split_cc"] {
        + make()
    }
    gr_radar_split_cc --|> tagged_stream_block
```

The diagram illustrates a class hierarchy. At the top is the 'tagged\_stream\_block' class, represented by a white rectangle with a black border, divided into three horizontal sections. The top section contains the class name. Below it are two empty sections. At the bottom is the 'gr::radar::split\_cc' class, represented by a gray rectangle with a black border, also divided into three horizontal sections. The top section contains the class name, the middle section is empty, and the bottom section contains the text '+ make()'. A blue arrow with an open triangular head points from the top of the 'gr::radar::split\_cc' class to the bottom of the 'tagged\_stream\_block' class, indicating that 'gr::radar::split\_cc' inherits from 'tagged\_stream\_block'.

gr::radar::split\_cc

+ make()
