

tagged_stream_block

```
classDiagram
    class tagged_stream_block {
    }
    class gr_radard_ofdm_divide_vcvc {
        + make()
    }
    gr_radard_ofdm_divide_vcvc --|> tagged_stream_block
```

The diagram illustrates a class hierarchy. At the top is the 'tagged_stream_block' class, represented by a white rectangle with a thin grey border, divided into three horizontal sections. The top section contains the class name. Below it is the 'gr::radar::ofdm_divide_vcvc' class, represented by a grey rectangle with a thick black border, also divided into three horizontal sections. The top section contains the class name, and the bottom section contains the method '+ make()'. A blue arrow with an open triangular head points from the top section of the 'gr::radar::ofdm_divide_vcvc' class to the bottom section of the 'tagged_stream_block' class, indicating that 'gr::radar::ofdm_divide_vcvc' inherits from 'tagged_stream_block'.

gr::radar::ofdm_divide_vcvc

+ make()
