

```
swig::traits_as< Type,  
value_category >::as
```

```
graph LR; A["swig::traits_as< Type,  
value_category >::as"] --> B["swig::asval"]
```

A diagram illustrating a mapping from a traits class to an alias. On the left, a gray rectangular box contains the text `swig::traits_as< Type, value_category >::as`. A dark blue arrow points from the right side of this box to a white rectangular box on the right, which contains the text `swig::asval`. Both boxes have a black border.

```
swig::asval
```
