

StandardError

```
classDiagram
    class StandardError
    class NoSuchMember["doxygen.base.NoSuchMember"]
    NoSuchMember --|> StandardError
```

The diagram illustrates an inheritance relationship. At the bottom is a gray-shaded class box for 'doxygen.base.NoSuchMember'. It has three horizontal compartments: the top one contains the class name, and the two below are empty. Above it is a white class box for 'StandardError', also with three horizontal compartments: the top one contains the class name, and the two below are empty. A blue arrow with an open triangular head points from the top of the 'doxygen.base.NoSuchMember' box to the bottom of the 'StandardError' box, indicating that 'StandardError' inherits from 'doxygen.base.NoSuchMember'.

doxygen.base.NoSuch
Member
