

supermod::docRowType

```
classDiagram
    class supermod_docRowType["supermod::docRowType"]
    class doxygen_generated_compound_docRowTypeSub["doxygen.generated.compound.docRowTypeSub"]
    supermod_docRowType <|-- doxygen_generated_compound_docRowTypeSub
```

The diagram illustrates a class hierarchy. At the top is the base class 'supermod::docRowType', represented by a white box with a thin black border. Below it is the derived class 'doxygen.generated.compound.docRowTypeSub', represented by a gray box with a thick black border. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance. The derived class box is divided into three horizontal sections: the top section contains the class name, the middle section is empty, and the bottom section contains the method '+ \_\_init\_\_()'.
