The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is light gray with a black border and contains three lines of C++-style identifiers: `_wrap_estimator_cw`, `_sptr_pc_input_buffers`, and `_full_var__SWIG_1`. The right box is white with a black border and contains the text `swig::from`. A solid blue arrow points from the right side of the gray box to the left side of the white box.
