

tagged_stream_block

```
classDiagram
    class tagged_stream_block
    class gr_radar_os_cfar_c["gr::radar::os_cfar_c"] {
        +set_rel_threshold()
        +set_mult_threshold()
        +set_samp_compare()
        +set_samp_protect()
        +make()
    }
    gr_radar_os_cfar_c --|> tagged_stream_block
```

The diagram illustrates a class hierarchy. At the top is the 'tagged_stream_block' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. At the bottom is the 'gr::radar::os_cfar_c' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. The middle compartment is empty. The bottom compartment contains a list of five methods, each preceded by a '+' sign: 'set_rel_threshold()', 'set_mult_threshold()', 'set_samp_compare()', 'set_samp_protect()', and 'make()'. A blue arrow with an open triangular head points from the top of the 'gr::radar::os_cfar_c' class to the bottom of the 'tagged_stream_block' class, indicating that 'gr::radar::os_cfar_c' inherits from 'tagged_stream_block'.

gr::radar::os_cfar_c

- + set_rel_threshold()
- + set_mult_threshold()
- + set_samp_compare()
- + set_samp_protect()
- + make()
