

supermod::MemberType

```
classDiagram
    class supermod_MemberType["supermod::MemberType"]
    class doxyxml_generated_index_MemberTypeSub["doxyxml.generated.index.MemberTypeSub"]
    doxyxml_generated_index_MemberTypeSub --|> supermod_MemberType
```

The diagram illustrates a class hierarchy. The superclass, 'supermod::MemberType', is represented by a white box with a thin black border, divided into three horizontal sections. The first section contains the class name, while the other two are empty. The subclass, 'doxyxml.generated.index.MemberTypeSub', is represented by a gray box with a thick black border, also divided into three horizontal sections. The top section contains the class name, the middle section is empty, and the bottom section contains the method signature '+ __init__()'. A blue arrow with a hollow triangular head points from the top of the subclass box to the bottom of the superclass box, indicating inheritance.

doxyxml.generated.index.
MemberTypeSub
