

supermod::docHeadingType

```
classDiagram
    class supermod_docHeadingType["supermod::docHeadingType"]
    class doxygen_generated_compound_docHeadingTypeSub["doxygen.generated.compound.docHeadingTypeSub"]
    supermod_docHeadingType <|-- doxygen_generated_compound_docHeadingTypeSub
```

The diagram illustrates a class hierarchy. At the top is the base class 'supermod::docHeadingType', represented by a white box with a black border and two empty internal compartments. Below it is the derived class 'doxygen.generated.compound.docHeadingTypeSub', represented by a gray box with a black border and three compartments. The first compartment of the derived class contains the class name. The third compartment contains the method '+ \_\_init\_\_()'. A blue arrow with an open triangle head points from the derived class to the base class, indicating inheritance.

doxygen.generated.compound.doc  
HeadingTypeSub

+ \_\_init\_\_()
